

FOR IMMEDIATE RELEASE

Optical Telecom selected as Turn-Key DAS provider for Frost Bank at new Headquarters Campus in San Antonio, Texas

ADDISON, Texas—February 1, 2016—Optical Telecom, a provider of Distributed Antenna System (DAS) installation, consulting and services, was chosen by Frost Bank as their Turn-Key DAS provider for the new, state of the art, Frost Bank Headquarters campus in San Antonio, TX. The active DAS spans the 4 story, ~620,000 SF North/South Office Building and the adjoining 7 story, ~475,000 SF parking garage. Optical Telecom provided all Engineering, Wireless Carrier Coordination, Design, Installation, Commissioning and Optimization of the DAS.

The DAS is currently providing seamless wireless coverage for Public Safety to insure first responder services in the facility and also enhances AT&T wireless services for the building visitors and staff. A second carrier is expected to join the DAS in the very near term.

About Optical Telecom

Optical Telecom has been an industry leader in Distributed Antenna Systems (DAS) since 2001. The company offers site surveys, design, installation, testing, maintenance, project management and turn-key DAS services for DAS projects across the United States. Optical Telecom has one of the best, if not the best, portfolios of premier DAS projects since Distributed Antenna Systems became a major force in improving wireless voice and data communications.
